Our Vision

We strive to be one of the Global Premier Solution partners in the Air conditioning and Refrigeration Industry.

To be superior in providing best customer experience by utilising our human assets to deliver the best quality in Equipment, Technology and customer handling skills.

Our Mission

To Provide and Maintain Global standards in Sales, Service and Material management through our certified and experienced employees.

To inculcate latest Methodology and technologies in Sales and Service for the HVAC industry in order to provide International standard customer experience to all our clients.

Mr. S. Ramamoorthy

Managing Director / Founder

Mr. S. Ramamoorthy is our company's managing director.

One of the most well-known and renowned providers of solutions and services with regard to the needs of HVAC systems. Designed with the intention of conquering all possible outcomes in order to provide the most effective solution. In the last 23 years, his experience with HVAC systems has led to the development of an emerging team and technicians that want to build a prominent support system for all HVAC systems.

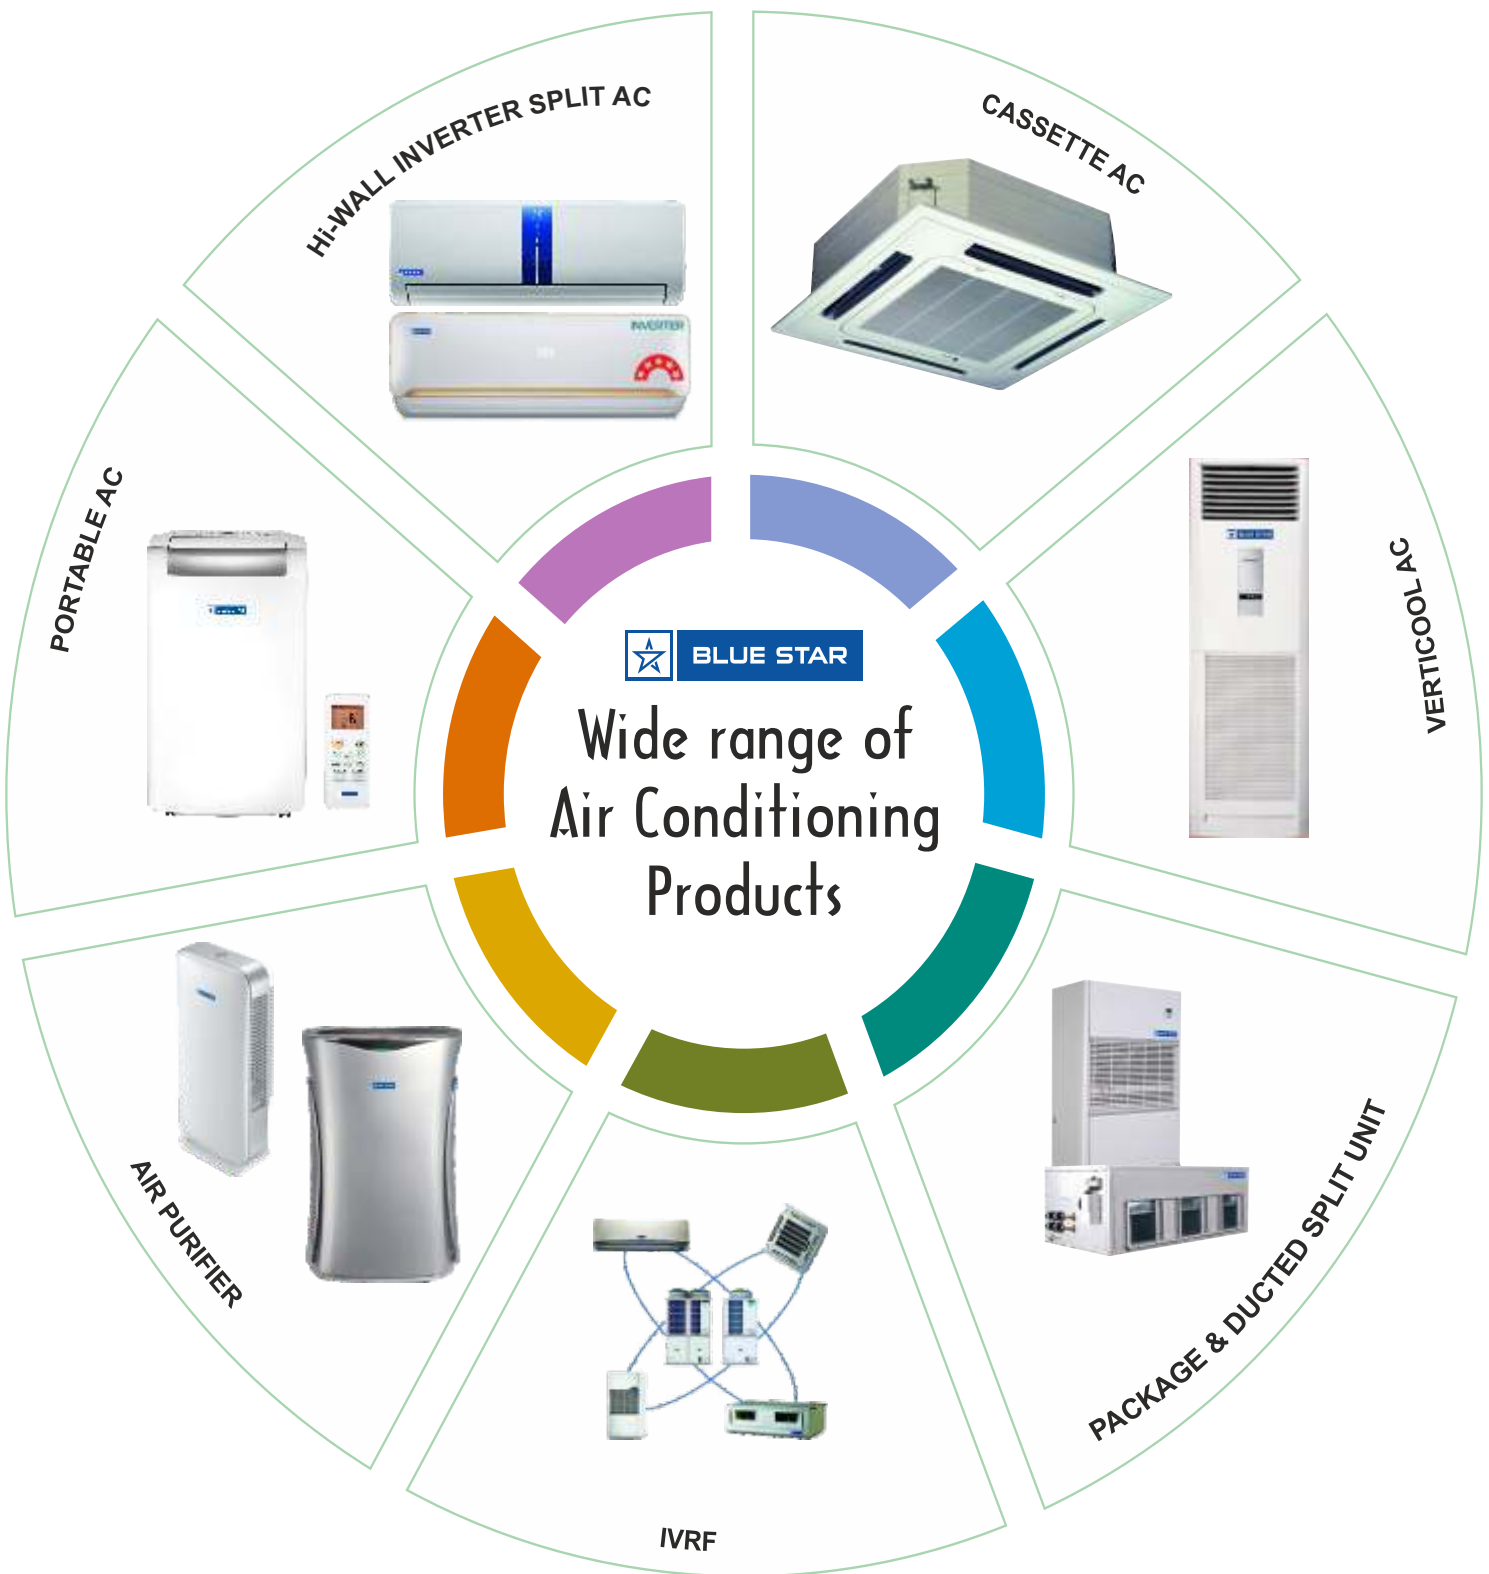

His commitment has exemplified the mile marker from all around the field. His enthusiasm in his responsibilities as managing director and leader in every aspect of the responsibilities assigned to him.

Always been an effective person in giving solutions, direction, and leadership, in addition to serving as the core element of our sales and service business.
